Can be modified to fit your specifications!

If the above garages do not meet your needs, Bernard Building Center can help you design and build a garage to fit your specifications. From big to small we sell them all! When you are done with the rough-in, Bernard's has all the finish products necessary to complete your "dream garage" (insulation, drywall, electrical, plumbing, door openers, paint, light fixtures, etc.). We deliver anywhere in Michigan for a nominal fee.

Deluxe Garages

Door Placement Options For Our Garage Packages

**PHOTOS and Plans of this building are for representation only. Actual package may not include variations and customizations that may be depicted in these photos.

*** Bernard Building Center strives to meet the highest building standards, due to varying soil conditions and local building codes, material lists may not meet the building requirements of your area. Materials package prices do not include labor, concrete, brick, insulation, drywall, paint or stain, electrical, heating, plumbing fixtures, cabinets, any or all materials not itemized on the Bernard Building Center material list. See your project sales representative for actual plan and package details.
